Features of Auto Roulette

When it comes to unique or special features, Auto Roulette doesn't include any unique features. However, the players who are going to enter the Auto Roulette game will see several standard live roulette features available.

One of these well-known features is the ability to bet on the racetrack . This option allows players to place bets on specific groups of numbers, including Voisins du Zero, Tier du Cylindre and Orphelins.

In a few words, Auto Roulette may not offer any special or unique features but does include numerous well-known live roulette options like a racetrack, autoplay, statistics tracker, and customization options.
